

WEBINARS

The state of Florida requires that board members become certified. One of the best and most convenient ways for board members to do so is by participating in a state-approved board member certification webinar. In collaboration with Campbell Property Management, our firm will be presenting complimentary board member certification webinars for both condos and HOAs. We will discuss the basic concepts of community operations, including an overview of the budget and reserve process, membership and board meetings, election procedures, and more!
